Office and Nurseries, HOLLISTON, MASS.

SHIPPING SEASON opens about March 20 to April 1 in the Spring, and continues until May 20 to June 1, and opens about October 1 in the Fall, and continues until the ground freezes. Shipping for **summer planting of Evergreens** opens about August 15th. Pot-grown plants can be shipped and planted at all times.

ORDERS.—Write plainly and give **explicit directions** as to address and mode of shipment; otherwise we will forward **according to our best judgment**. All goods travel at purchaser's risk. **We assume no responsibility for the goods after delivery to the forwarding companies.**

When losses occur by delays in delivery, claims should be made **at once** on the forwarding companies.

CLAIMS, to receive consideration, must be made **within ten (10) days of receipt of goods.**

While we exercise the greatest care to have all Trees, Shrubs and Plants genuine and reliable, and hold ourselves prepared to replace, on proper proof, all that prove untrue, **we do not give any warranty, expressed or implied**; and in case of an error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods.

PACKING.—We take great care in packing, using damp moss to protect roots. **Boxes and bales are charged for at cost.**

RATES.—The prices in this list supersede all previous rates, and apply to quantities specified, but two hundred and fifty (250) will be furnished at the thousand rate, forty (40) at the one hundred rate, and five (5) at the ten rate, except in the case of perennials when 25 of one kind will be given at the 100 rate. Specimens personally selected by the purchaser or his representative (or specially selected by us at the request of the purchaser) will be priced according to individual values.

**This Price List cancels all previous lists and prices are subject to change without notice.**

TERMS, CASH WITH ORDERS, except to such persons as satisfy us as to their responsibility. Bills are due when **presented** and interest will be charged at the rate of six per cent. on bills remaining unpaid December 1 in Fall and June 1 in Spring.

A **Certificate of Inspection** will accompany each shipment. **Address all communications to office.**

## FALL, 1926

Our Evergreens are in especially fine condition this year. Most of them have been transplanted recently and all of them are in excellent condition for Spring planting. We wish to call special attention to our small Evergreens suitable for hedges, group planting and window-boxes, and to our large specimens for immediate effects. Many of these specimens are of unusual beauty and can be moved on platforms, at special prices, which we will gladly quote upon request.

NOTE.—Look on pages 12 to 19 at our list of Pot-grown Scotch Heather and other ground covers.

A cordial invitation is hereby extended to visit our nursery at any time for the purpose of plant study, or for inspection of saleable stock. EASTERN NURSERIES, INC.

This Catalogue has been corrected in accordance with the new Book of Standardized Plant Names by the American Joint Committee on Horticultural Nomenclature

### EVERGREEN TREES AND SHRUBS

*The prices of Evergreens include the burlapping of balls up to 5 feet.*

NOTE: On all specimen Evergreens over 12 ft. price will include canvas and platform when dug.

14 to 16 ft. spec. tr. 1920	50 to 60.00
16 to 18 ft. spec. tr. 1920	60 to 75.00

<b>glauca</b> COLORADO BLUE SPRUCE	
10 to 12 ft. tr. 1920 . . . . .	40.00
12 to 14 ft. tr. 1920 . . . . .	50.00
14 to 16 ft. tr. 1920 . . . . .	60 to 75.00
16 to 18 ft. tr. 1920 . . . . .	75 to 90.00

<b>kosteri</b> KOSTER BLUE SPRUCE	
8 to 10 ft. . . . .	40 to 50.00
10 to 12 ft. . . . .	60 to 80.00
12 to 14 ft. . . . .	80 to 100.00
14 to 16 ft. . . . .	100 to 150.00

All our specimens of Colorado Spruce, both the Blue forms and the Green forms, were transplanted three years ago and are now in an ideal condition for planting in permanent places.

<b>Pieris (Andromeda) floribunda</b> MOUNTAIN ANDROMEDA	
15 to 18 in. spread . . . . .	5.00

<b>Pinus cembra</b> SWISS STONE PINE	
10 to 14 ft. spec. . . . .	75.00

The Swiss Stone Pine is one of the most beautiful of all pines for formal work. The tree is very slow growing, consequently is important for use as accents where one wishes an accent which will stay in scale many years. Our plants are all beautiful specimens.

<b>excelsa</b> HIMALAYAN PINE	
1½ to 2 ft. × 2½ ft. . . . .	7.50 to 10.00

<b>montana mughus</b> MUGHO or DWARF MOUNTAIN PINE	
4 to 5 ft. spread . . . . .	16.00
5 to 6 ft. spread . . . . .	22.00
6 to 7 ft. spread . . . . .	25.00

Our entire block of Mugho Pines was transplanted three years ago, and they are now in wonderful condition for planting. Among them are many very fine specimens of the various types of this useful plant.

<b>obtusula kiuslana</b> KURUME AZALEA			

Originated in the city of Kurume, on the Island of Kyushu, Japan, nearly 100 years ago, these beautiful plants have been practically unknown in Europe and America until brought to the attention of the public a few years ago by Mr. E. H. Wilson, of the Arnold Arboretum. The plants of this group are of dwarf, compact habit, with small, deep green, glossy, evergreen foliage, and small flowers, borne in great profusion, and covering the plants for many weeks with their fairy clouds of exquisite color. Many of the varieties have flowers known as "hose-in-hose," that is, having a petaloid calyx and giving the effect of one corolla set within another.

Kurume Azaleas are hardy on Long Island, New York, and thence south. In the north these plants are of untold value for forcing for winter bloom in conservatory or greenhouse. From a collection of over 200 sorts Japanese experts have selected what they consider the best six varieties. We are now offering for sale plants of these six varieties, raised from cuttings. With one exception the varieties offered have hose-in-hose flowers.

The six varieties referred to are:

- TAKASAGO, pure pink, hose-in-hose
- AZUMA-KAGAMI, deep pink, hose-in-hose
- KIRIN, deep rose, shading to silvery rose, hose-in-hose
- KUMO-NO-NYE, pure salmon, single
- KURAI-NO-HIMO, pure carmine, hose-in-hose
- KURENO-YUKI, pure white, hose-in-hose

For prices see pages 11 - 12

**Calluna vulgaris** SCOTCH HEATHER, and named varieties

Scotch Heather, the "Bonnie Purple Heather" of song and verse, is a lovely, low-growing evergreen shrub, 6 in. to 3 ft. in height, of the Heath Family, covered in midsummer with small, bell-shaped purple flowers, borne on slender spikes. These flowers stay in good condition for some weeks, and if cut while fresh will hold their color and charm all winter. Honey bees, too, are attracted to Scotch Heather and make from it a honey that is considered very choice. This plant is widely known as invaluable for planting in full sun in sandy soil; it is also most attractive as an edging to beds of Rhododendrons, Laurel, etc., and in Rock Gardens. This little plant gives most satisfaction when planted from pots. Besides the common purple Heather there are many varieties which give variation in the height of plant, color of flowers, and season of bloom. Below we offer a list of varieties, all of which are pot grown, sturdy plants. 2½ and 3 in. pots

- flora plena** A double-flowered form of our plain Scotch Bonnie Purple Heather. 2½ and 3 in. pots
- var. **alba** WHITE SCOTCH HEATHER, early blooming, with light green foliage, white flowers, grows 12 to 15 inches. 2½ and 3 in. pots
- var. **alba elata** TALL WHITE HEATHER. Late blooming, very tall, straight growth. Foliage soft dark green, flowers white, grows 18 to 24 in. 2½ and 3 in. pots
- var. **alba erecta** TALL WHITE HEATHER. Late blooming, foliage dark green, flowers white, grows 18 in. 2½ and 3 in. pots
- var. **alba hammondi** HAMMOND WHITE HEATHER. Mid-season, tall upright growth, foliage rich deep green, flowers white, grows 18 to 24 in. high. 2½ and 3 in. pots
- var. **alba minor** DWARF WHITE HEATHER. Mid-season tall bushy growth, 15-20 in. high, foliage very fine light green; flowers white. 2½ and 3 in. pots
- var. **alba pilosa** Late blooming, tall growth 18-20 in. high, foliage of soft grayish green, flowers white. 2½ and 3 in. pots
- var. **alba rigida** BRUSH HEATHER. Late, low rigid growth, foliage rich deep green, flowers white. 3 in. pots
- var. **alba scarlil** Foliage golden, not very noticeable in winter, nor objectionably tall, grows 18 to 20 inches. 2½ in. pots
- var. **alba spicata** TALL WHITE HEATHER. New. Grows 20 to 24 in. high. 2½ and 3 in. pots

**Plant Bearberry and Scotch Heather near the sea**

*Calluna vulgaris*

- var. *alportii* ALPORT HEATHER. Late blooming, tall straight growth to 24 in. foliage deep rich green, turning purple in autumn. Flowers rosy carmine. 2½ and 3 in. pots
- var. *argentea* Flowers pink, foliage whitish, yellow green. Grows 15 to 18 in. high. 2½ in. pots
- var. *aurea* Golden foliage and pink flowers, one of the best of those with colored foliage. 2½ and 3 in. pots
- var. *compacta* Late blooming. Low compact, moss-like growth, 4 to 6 in. high, of bright, rich green. Flowers pale lavender. 2½ in. pots
- var. *cuprea* Mid-season. Straight medium growth 12 to 15 in. high, foliage bright, almost yellowish green, turning to rich glowing red in autumn. Flowers purple. 2½ and 3 in. pots
- var. *hirsuta (tomentosa)*. WOOLLY HEATHER. Midseason. Low compact growth. 4 to 7 in. high, foliage soft gray, flowers purple. 2½ and 3 in. pots
- var. *humilis* Low growing, with rich green foliage. Flowers, midseason, white. 2½ in. pots
- var. *hypnoides* Late blooming. Low-spreading growth, 6 to 12 in. high. Foliage soft deep green, flowers deep pink. 2½ and 3 in. pots
- var. *monstrosa* Loose growth. Flowers pink. 2½ in. pots
- var. *rosea* Mid-season. Tall, straight-growing, with delicate pink flowers. 2½ and 3 in. pots
- var. *rubra* RED HEATHER. Early blooming, with low spreading growth, 6 to 12 in. high. Foliage soft green turning purple in autumn. Flowers rosy carmine. 2½ and 3 in. pots
- var. *tenella* SLENDER HEATHER. Early blooming. Low growth with slender spikes of dainty lavender flowers. 2½ and 3 in. pots.
- var. *variegata* Very bright, whitish green foliage, pink flowers, grows 15 to 20 in. high. 2½ in. pots

NOTE: The *Cotoneasters* are among the most important groups of hardy plants which have recently been brought before the public. All of them have attractive foliage and conspicuous berries. Of those listed below *C. adpressa*, *horizontalis* and its variety *perpusilla*, and *C. microphylla* are of low-spreading growth, have small

For prices see pages 11 - 12

	Each	10	100
glossy, evergreen-like foliage and bright red berries which stay on the shrubs well into the winter. The plants of this group of <i>Cotoneaster</i> are particularly adaptable for use in rockery, on the edge of low shrubberies or on slopes. <i>C. Dielsiana</i> , <i>divaricata</i> and <i>salicifolia floccosa</i> are of more shrub-like growth, with long graceful branches, glossy leaves and bright red berries. All of these plants are hardy and do well in any good well-drained garden soil, but require plenty of water during the first year after transplanting, and take hold much more satisfactorily when transplanted from pots than from the field.

<b>pileata</b> PRIVET HONEYSUCKLE			
This Honeysuckle, also, is evergreen. The growth of this shrub is somewhat stiff, and spreading, the foliage ¼ to 1 inch long, rather box-like, and bright shining green. While still a small plant <i>L. pileata</i> is covered with small yellow flowers which produce in early autumn beautiful transparent berries of clear light purple. Like <i>L. nitida</i> this shrub does not always survive the severe winters of this climate; but in southern New England and south and west it is one of the most useful and beautiful of the new shrubs. It will serve as a specimen shrub in the garden, a shrub for rock-gardens, or as a low, wide-spreading hedge.

9 to 10 ft. " "	10.00		
10 to 11 ft. " "	12.00		
11 to 12 ft. " "	15.00		
This is one of the rarest and most beautiful of all Hawthorns. It has large white flowers in early spring. Even the young trees offered by us bear quantities of large round edible scarlet fruits in August and September, and, later, the substantial leaves turn a beautiful scarlet. A beautiful small flowering tree, suitable as a specimen, for planting in groups on the edges of woods, or near the sea.

24 to 30 in. . . . .	1.50	13.50	
The white and deep yellow Potentillas are charming shrubs of low habit. Their arching branches are covered with delicate divided leaves, and small single flowers, like tiny roses, continuing to bloom from early spring until frost. As a low shrub in the foreground of shrubbery or for the rockery these shrubs are invaluable.

**Plant Bearberry and Scotch Heather near the sea**

Each 10 100

**William C. Egan** A Dawson hybrid, climber, with good foliage and large very double pink flowers. Late June. The Egan Rose is one of the very satisfactory climbing Roses. Its foliage is pleasing, and is never attacked by insects, it does not die back in hard winters, and even when very small it is covered with the large, very double fragrant roses

2 to 3 ft. . . . .	\$1.50	\$12.50	\$
3 to 4 ft. . . . .	2.00	15.00	

All the Roses listed above are thrifty two to three-year old plants which were planted from pots last spring, and will lift with good roots

**Hybrid Perpetual and Hybrid Tea Roses** We have a limited supply of Hybrid Roses including Paul Neyron, Genenal Jacqueminot, Los Angeles, Pink Druski, Frau Karl Druski, Magna Charta, and Mme. Edward Herriott
